

LEOSA/CDRC Certification

- The TCRGC may test and certify officers requiring annual LEOSA/CDRC certification using the below standard.
- The fee shall be \$45 for non-members and \$25 for members, and we will provide the target. The officer will provide the necessary certification form if our local form is not sufficient.
- This is an extract from the 2020 version of the California Department of Corrections Operations Manual and is acceptable for both CDCR and LEOSA CCW annual certification.
- Note: This course of fire requires the B-21 range target. The 80% pass rate for this course is 31/36 hits within the center scoring area.
- 32010.19.5.3 36 Round Handgun Course (Basic Course)

- Distance	- Time	- Position	- Total rounds
- 3 Yards	- 30 Seconds	- Standing	- 12
- 7 Yards	- 30 Seconds	- Standing	- 12
- 15 Yards	- 45 Seconds	- Standing	- 12
- Total	-	-	- 36

32010.19.9 Use of Non-Departmental Firearm Ranges for Off-Duty Qualification Departmental peace officers shall have the option of qualifying at other than departmental ranges as outlined in the MOU; the following policies shall be adhered to when utilizing this option.

- Only concealable handguns consisting of .22 to .45 caliber shall be used. No black powder guns, shotguns, rifles, or single action revolvers shall be used.
- Only factory loaded/reloaded ammunition shall be used. Snake loads and loads that exceed industry standard are not acceptable rounds and shall not be used.
- Minimally, the handgun course of fire, as specified in DOM Section 32010.19.5.3 should be used. (See Above)
- In the event that the range facility being used for the qualification session cannot accommodate the said course of fire, every attempt should be made to utilize an equivalent course of fire to ensure that the shooter demonstrates an adequate level of proficiency. Nothing shall prevent the peace officer

from qualifying with a course of fire that indicates greater proficiency or is required for duty by the unit in which the peace officer is assigned.

- Individuals administering the qualification attempt shall possess a Rangemaster/Firearms Instructor accreditation or equivalent from a reputable shooting organization recognized in the United States.
- The shooter, upon attaining a passing score shall provide to the person supervising the qualification attempt, a CDC Form 1803, Off-duty Firearm Qualification Certification that shall be signed by the certifying individual, which shall include the accreditation of the individual.
- It is the shooter's responsibility to submit, and maintain annually, a copy of the CDC Form 1798, Annual Acknowledgement of Receipt of Range and Firearms Safety Rules, and Penal Code Sections related to the Possession and Use of Off-duty Firearms. The completed CDC Form 1798 shall be maintained in the employees In Service Training file, at the location where the participant is employed.
